

TEMPUR-PEDIC®
PRODUCT GUIDE

TEMPUR-PEDIC® REINVENTED

When we created the world's first body-adaptive mattresses and pillows over 25 years ago, we thought it couldn't get any better.

We were wrong.

Our new collections are more innovative than ever. Thoughtfully designed, expertly engineered, and rigorously tested against standards that didn't even exist until we created them.

Because nothing compares to Tempur-Pedic®.

It's not memory foam. It's an advanced combination of materials that adapt and respond to your body's unique needs throughout the night — from the moment you lie down to the moment you rise.

So you can fall asleep faster.

Stay asleep longer.

Relax more deeply.

And wake up feeling rejuvenated.

WELCOME

Tempur-Pedic® is bringing restorative, rejuvenating sleep to consumers in a new, revolutionary way.

Use this guide to navigate our latest innovations — from the overall vision to in-depth product details.

WHY TEMPUR-PEDIC®? **THERE'S NOTHING LIKE IT.**

EASIER

Tempur-Pedic® mattresses evenly absorb the force of your body and its pressure points to reduce tossing and turning — so you can relax more fully into your sleep.

DEEPER

Tempur-Pedic® mattresses dramatically reduce motion transfer between you and your partner. So you can rest undisturbed — and rejuvenate more deeply.

FASTER

Tempur-Pedic® mattresses adapt and conform to your body's unique needs throughout the night. So you fall asleep faster and stay asleep longer.

COOLER

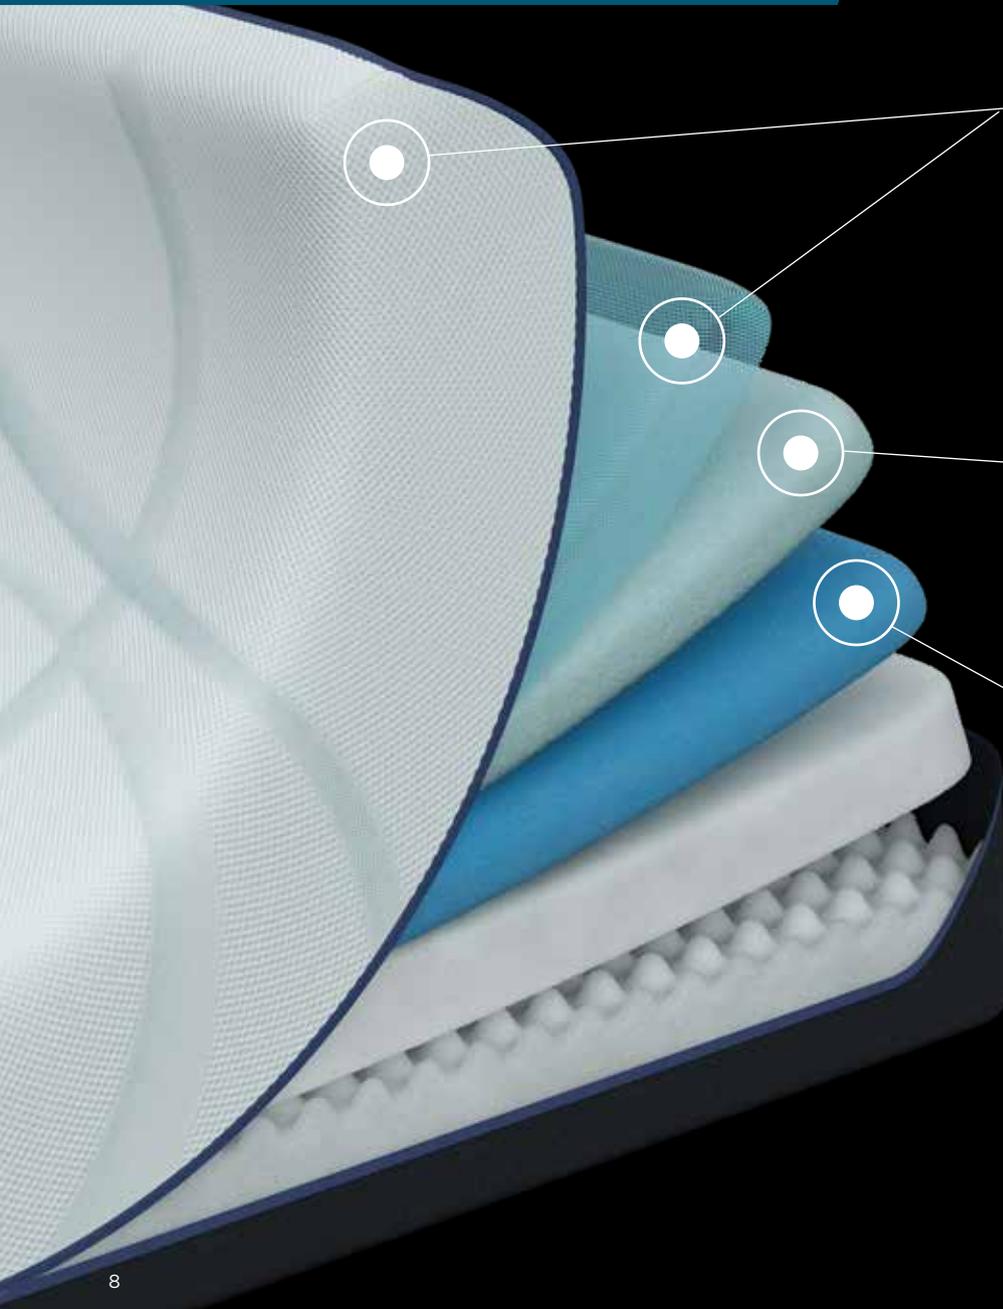

Tempur-Pedic® mattresses are designed with cutting-edge cooling materials to create a cooler sleeping environment — so you can get the uninterrupted, restorative rest you need.

WHY TEMPUR-PEDIC®? SMARTER DESIGN.

ADAPT™ COLLECTION

Adaptive and responsive for rejuvenating sleep

SMARTCLIMATE® DUAL COVER SYSTEM

Next-generation technology featuring a zip-off, cool-to-touch outer layer and super-stretch inner panel for convenience and comfort

*COOL-TO-TOUCH REMOVABLE COVER
HIGH-STRETCH PERFORMANCE PANEL*

TEMPUR-ES® COMFORT LAYER

The tighter cell structure of TEMPUR-ES® creates a softer feel that works in combination with other layers to support and relax

TEMPUR-APR+™ SUPPORT LAYER

A luxurious evolution of our groundbreaking TEMPUR-APR® Material. TEMPUR-APR+ delivers all the pressure relief of original APR with a more advanced cell structure for ultra-conforming comfort

breeze° COLLECTION

Superior all-night cooling for deeper, more refreshing sleep

**SMARTCLIMATE® MAX
DUAL COVER SYSTEM**

An enhanced zip-off cover with double the cool-to-touch comfort combined with a super-stretch inner layer so you feel cooler when you lie down.

*COOL-TO-TOUCH REMOVABLE COVER
HIGH-STRETCH PERFORMANCE PANEL*

**PURECOOL+™ PHASE
CHANGE MATERIAL**

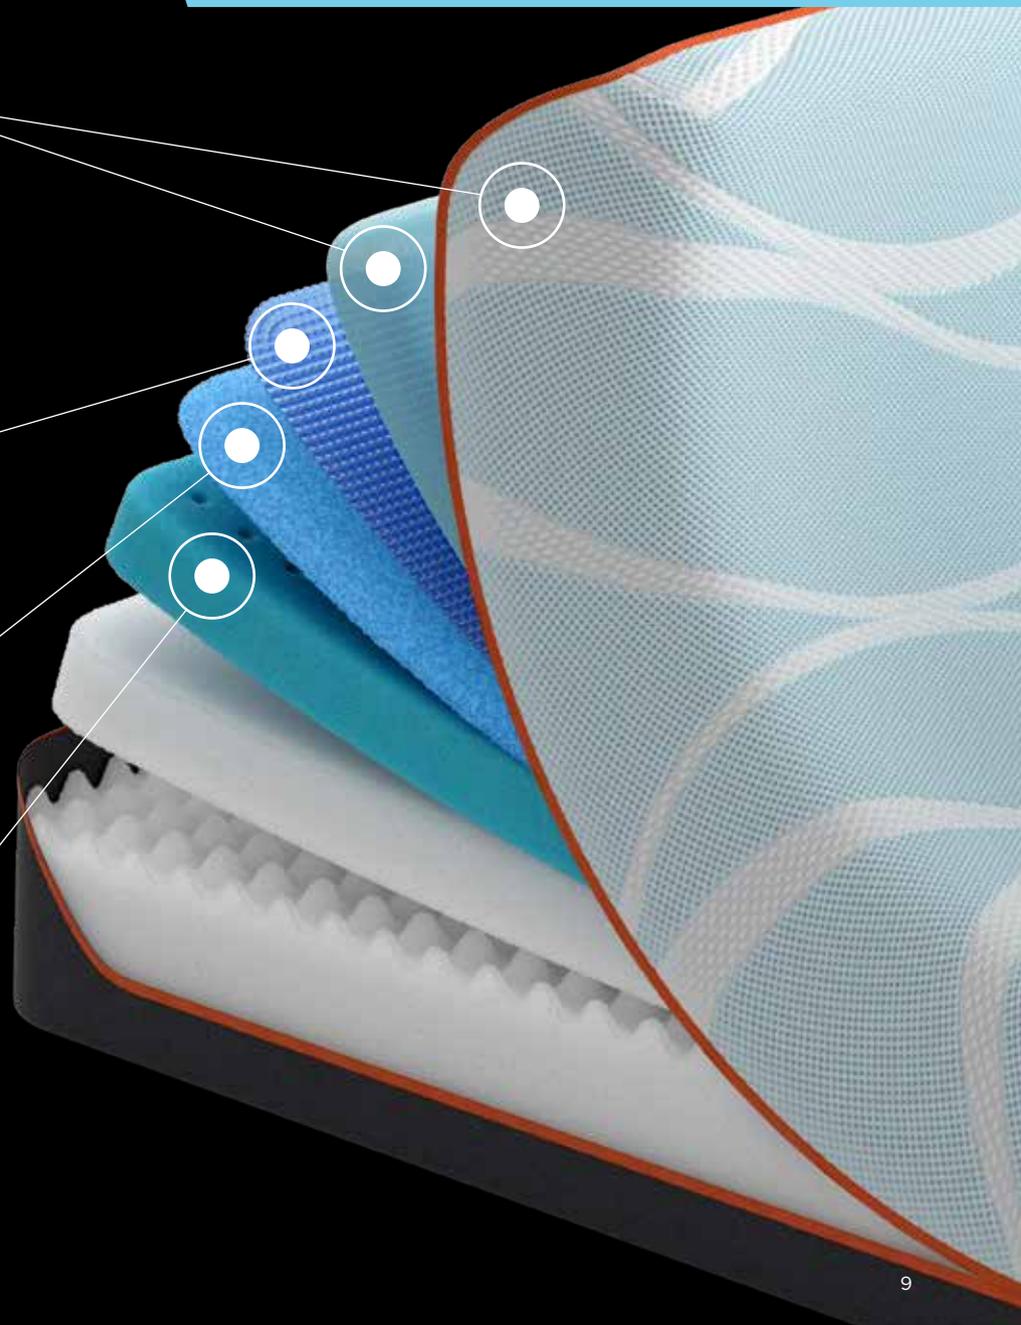

Exclusive, next-generation technology absorbs excess heat so you feel cooler while you fall asleep

**TEMPUR-CM+™
COMFORT LAYER**

Advanced TEMPUR® Material redesigned with maximum airflow for all-night cooling comfort

**VENTILATED TEMPUR-APR®
SUPPORT LAYER**

Our most pressure-relieving material ever — now with an all-new, ultra-breathable design

WHY TEMPUR-PEDIC®? **CONTINUOUS INNOVATION.**

TEMPUR® Material is a proprietary, one-of-a-kind technology that we've evolved for decades to precisely adapt to your unique body, reduce motion transfer, and relieve pressure points.

Unlike ordinary memory foam, TEMPUR® Material's precision-engineered cellular structure immediately and precisely adapts to your weight, shape, and temperature. Your body heat causes the material to soften as it continuously adapts to your shape while you sleep.

Designed by our in-house experts, every Tempur-Pedic® mattress is a work of human innovation. We understand the unique properties of every material in our toolbox and how to combine them. And hundreds of combinations are tested to give you a sleep experience unlike anything else.

THE TEMPUR® MATERIAL TOOLBOX

We've developed five unique versions of TEMPUR® Material for specific experiences. All of the materials precisely adapt to your weight, shape, and temperature for personalized comfort and support.

ORIGINAL TEMPUR® - Legendary

Originally formulated to absorb the G-force of NASA astronauts traveling into space, and then perfected by us for sleepers — it's as comfortable and supportive as it is iconic.

TEMPUR-ES® - Extra Soft

The tighter cell structure of TEMPUR-ES® creates a softer feel that works in combination with other layers to support and relax.

TEMPUR-APR® - Advanced Pressure Relief

Our most pressure-relieving material ever — made for deeper, more rejuvenating sleep.

TEMPUR-APR+™ - Advanced Pressure Relief Plus

Delivers all the pressure relief of original APR, with a more advanced cell structure for ultra-conforming comfort.

TEMPUR-CM+™ - Climate Management

Expertly designed for maximum airflow and breathability — dissipating heat and delivering all-night cooling comfort.

TEMPUR-ADAPT[®] COLLECTION

Adaptive and responsive for rejuvenating sleep

ADAPT™ SERIES

Legendary comfort and support for deeper sleep.

PROADAPT™ SERIES

Advanced pressure relief for restorative rest.

LUXEADAPT™ SERIES

The ultimate TEMPUR® experience for total relaxation.

TEMPUR-ADAPT® SERIES

Legendary comfort and support for deeper sleep

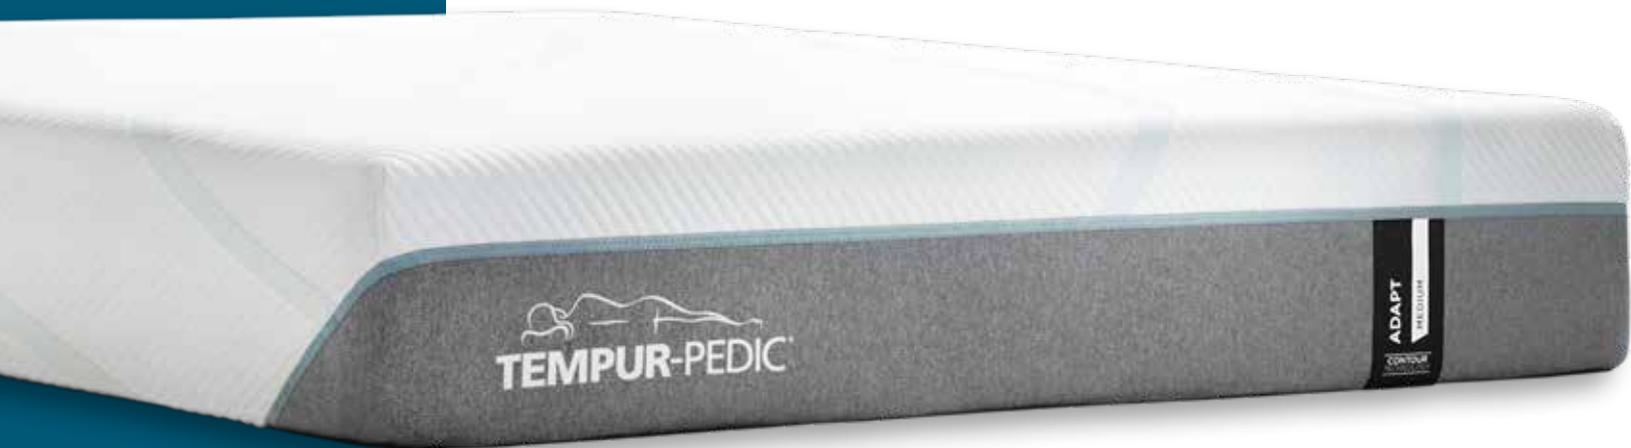

The technology that started it all, redesigned for today. The TEMPUR-Adapt® Series combines superior cool-to-touch comfort with two layers of premium TEMPUR® Material. Continually adapting and conforming to your body's changing needs throughout the night. Relieving pressure. Reducing motion. Relaxing you while you sleep and rejuvenating your days.

Our most pressure-relieving material ever—
now with an all-new, ultra-breathable design.

Feels 8 degrees cooler throughout the
night compared to the Adapt Collection**

*Based on average heat index of TEMPUR-PRObreeze^o compared
to TEMPUR-ProAdapt[®] models measured over an 8-hour period

**Based on average heat index of TEMPUR-LUXEbreeze^o compared
to TEMPUR-ProAdapt[®] models measured over an 8-hour period

NEXT-GENERATION COOLING TECHNOLOGIES

Tempur-Pedic® engineers are continuously improving our technologies to deliver industry-leading cooling solutions. With the reinvention of TEMPUR-breeze°, we redesigned and rebranded two core technologies.

PURECOOL™ VS. PURECOOL+™

The reinvented PureCool+™ Phase Change Material is an exclusive formula that:

- Is lighter-weight and more breathable to enable better airflow than our previous technology.
- Has a thinner capsule wall which provides more cooling power per cubic foot than our previous technology.

TCM VS. TEMPUR-CM+™

The next-generation TEMPUR-CM+™ Material is a series of all-new formulations that:

- Has an optimized feel so it can be placed in the comfort layer, meaning the consumer can more fully feel its cooling power.
- Has an optimized cellular structure which provides more airflow and breathability than our previous technology.
- Is directly infused with PureCool+™ Phase Change Material. The open cell structure of TEMPUR-CM+ gives the PureCool+ more surface area to adhere to, further improving cooling performance compared to our previous technology.

TEMPUR-ERGO® SMART BASES

Powered by *Sleeptracker*®-AI

Introducing next-level sleep. A TEMPUR-Ergo® Smart Base, powered by Sleeptracker®-AI, silently monitors you and your partner through the night and can detect and respond to snoring — automatically.*

RESPONDS TO SNORING **AUTOMATICALLY***

The TEMPUR-Ergo® Smart Base automatically senses snoring and automatically raises your head to a position that may reduce snoring.*

PERSONALIZED **SLEEP INSIGHTS**

Prepare for night after night of truly transformative sleep with personal sleep analytics that tell you the story of how you slept.

SMART HOME **CONNECTIVITY**

Compatible with Google Assistant™ and Alexa, the TEMPUR-Ergo® Smart Base gives you control with simple voice commands to access your insights and adjust your smart base. Just say the word.

*Bed raises once approximately 12 degrees in response to snoring. This may reduce snoring in otherwise healthy individuals who snore due to body positioning.

Google and Google Home are trademarks of Google LLC.

SLEEPTRACKER®-AI

HOW IT WORKS

Take your sleep to the next level with TEMPUR-Ergo® Smart Bases powered by Sleeptracker®-AI. Experience the difference of a completely integrated solution with personalized sleep analytics and coaching plus a uniquely responsive smart base that can now automatically respond to snoring and may help you sleep better through the night.* So prepare for truly transformative sleep. Tempur-Pedic® will take you there.

To enjoy the full Sleeptracker® experience you must pair it with either a TEMPUR-Ergo® or TEMPUR-Ergo® Extend Smart Base.

TAKE YOUR SLEEP TO THE NEXT LEVEL

SLEEP SENSING

Highly accurate sensors detect snoring,* sleep time, awake time, and sleeping heart rate.

NONINTRUSIVE AND PROTECTED

Nothing to update, wear, or get in the way of your sleep. Sleep monitoring captures data without a microphone, wristwatch, or camera. Your sleep data is safe. Your data is stored anonymously and shared only with you.

LEADING INTELLIGENCE

The Tempur-Pedic® Sleeptracker® monitor leverages algorithms that analyze historical data from nearly 250 million nights of sleep to provide you with personalized sleep strategies in an easy-to-use app.

WHAT'S INCLUDED:

- 2 Base Sensors
- 1 Environment Sensor
- 1 Adapter Cord

Each sleep system equipped to track two (2) sleepers

**Bed raises once approximately 12 degrees in response to snoring. This may reduce snoring in otherwise healthy individuals who snore due to body positioning.*

SLEEPTRACKER[®]-AI BUILT IN

SMART BASES

TEMPUR- Ergo[®] Extend Smart Base

TEMPUR-PEDIC[®]
SLEEPTRACKER[®] APP
AND REMOTE

Our most elite power base combines our most advanced technologies including personal analytics with automatic snore detection and snore response.* Based on our ergonomic studies designed to identify optimal body positions for different activities, the base seamlessly moves between four factory preset positions, including exclusive PerfectSeat[™]. Take advantage of other advanced features like four-zone massage, USB ports, and underbed lighting.

SLEEPTRACKER[®]-AI

Detects and responds to snoring,* and tracks sleep time, awake time, and sleeping heart rate with secure, nonintrusive sensors

QUIETMODE[™]

Gently tilts your mattress to a position to help reduce snoring

PERFECTSEAT[™]

Exclusive Tempur-Pedic[®] technology that optimizes the shape of your mattress so you can relax in a more natural position

WIRELESS REMOTE

Features one-touch preset buttons and backlit, soft-touch function keys so you can adjust in the dark

HEAD AND FOOT LIFT

Gives you control of your sleeping space, with nearly unlimited head and foot lift positions, for reading, watching TV, or working

PILLOW TILT

Enhance your head lift with a slight tilt around your neck

ZERO GRAVITY PRESET

Elevates your head and feet to closely simulate weightlessness and help take the pressure off your back while you sleep

FOUR-ZONE MASSAGE

Intensify your mattress massage with four massage zones — two at the head and two at the feet — and three levels of intensity

OTHER FEATURES:

Adjustable Legs USB Ports
Underbed Lighting

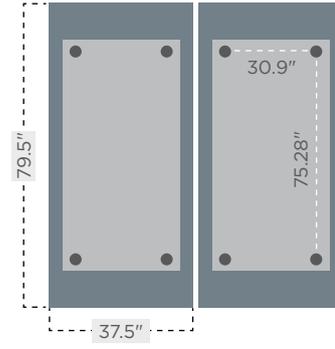

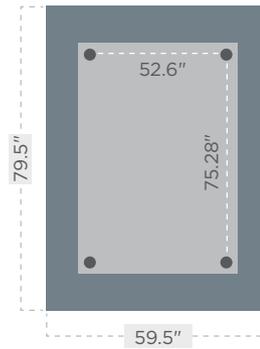

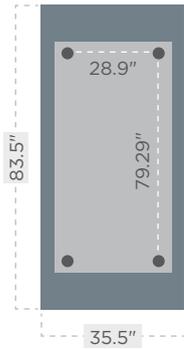

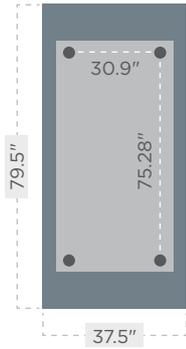

Available sizes

Twin	Twin Long	Double	Queen	Split King	King (Horiz.)	Split CA King	CA King (Horiz.)
	●		●	●	●	●	●

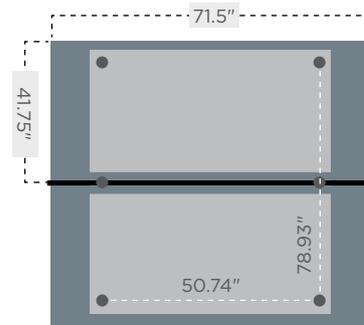

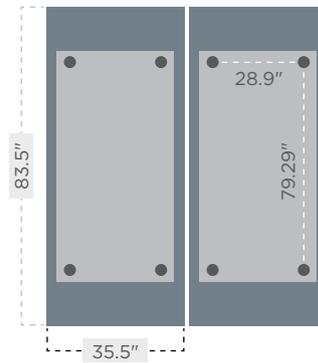

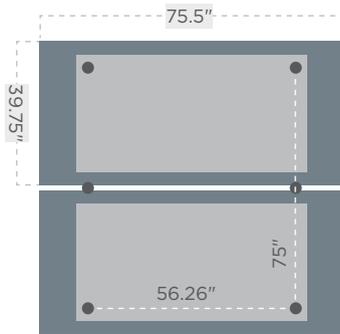

*Bed raises once approximately 12 degrees in response to snoring. This may reduce snoring in otherwise healthy individuals who snore due to body positioning.

Will it fit in your bed frame?

TWIN LONG SPLIT CA KING QUEEN KING (2X TWIN LONG)

KING (HORIZ.) CA KING (2X SPLIT CA KING) CA KING (HORIZ.)

WHAT'S THE DIFFERENCE?

SPLIT KING

Two pieces sit together vertically, providing two individual sleep experiences (two mattresses).

KING (HORIZONTAL)

Two pieces connect horizontally for one seamless system (one mattress).

LEG DESIGN OPTIONS

Four-in-one legs can be adjusted to four different heights without tools or extra accessories.

	NO LEG ZERO CLEARANCE	3" LEG	6" LEG	9" LEG	12" LEG
Total Height: Legs + Base	8"	11"	14"	17"	20**

*Ergo Extend ships standard with 9" stackable legs. Accessory purchase of the 12" stackable leg (qty. 6) is required to achieve this height. Maximum height is 20".

FOUNDATION & BASE CARE INSTRUCTIONS

Fabric Care:

To prolong the life of your fabric, protect from direct sunlight whenever possible. For spot cleaning, wipe area with a lightly-damp sponge or vacuum with a soft brush attachment to remove particles. Keep at a minimum of 30cm (12 inches) away from direct heat sources. For deeper cleaning, blot liquid spills with a clean dry cloth.

Wipe with a clean cloth dampened with warm water. Do not wet excessively. A soft bristle brush may be used to remove ingrained soil. Avoid scratching by gentle brushing. Wipe with a clean cloth dampened with warm water to remove residues after brushing. Dry in shade away from direct heat.

Weights are product-only and do not include packaging.

POWER BASES

Ease®

Contact your sales representative for unique order management compared to Ergo and Ergo Extend.

REMOTE CONTROL

Ease® has all the features you need in a power base, upgraded for custom comfort. With nearly unlimited ergonomic head and foot positions and presets for customized comfort, Ease® is an essential part of a complete and seamless sleep experience.

WIRELESS REMOTE

Features one-touch preset buttons and backlit, soft-touch function keys so you can adjust in the dark

HEAD AND FOOT LIFT

Gives you control of your sleeping space, with nearly unlimited head and foot lift positions, for reading, watching TV, or working

ZERO GRAVITY PRESET

Elevates your head and feet to closely simulate weightlessness and help take the pressure off your back while you sleep

LINENS AND ACCESSORIES

In addition to our famous mattresses and bases, Tempur-Pedic® offers a full line of top-of-bed and accessory products.

LINENS

Consumers can outfit their new bed with sheet sets designed specifically for Tempur-Pedic® mattresses, plus mattress and pillow protectors to help guard against spills and stains.

ACCESSORIES

Whether at home or away, there's a Tempur-Pedic® accessory for every need.

LINENS

Designed to fit Tempur-Pedic® mattresses and made from the finest materials, our sheet sets are a touchable first layer of luxury. Choose soft, combed cotton as a luxury basic; Pima cotton for an extremely soft, satin-like feel; Premium Soft™ sheet sets, a breathable choice for year-round; or Egyptian cotton for a plush feel and the added detail of satin piping.

What is TEMPUR® Material?

TEMPUR® Material is a proprietary, one-of-a-kind technology that we've evolved for decades to adapt to your unique body, reduce motion transfer, and relieve pressure points. To date, we've developed five unique versions of TEMPUR® Material, and each mattress features a different combination of these materials to deliver specific experiences.

ORIGINAL TEMPUR® - Legendary

Originally formulated to absorb the G-force of NASA astronauts traveling into space, and then perfected by us for sleepers — it's as comfortable and supportive as it is iconic.

TEMPUR-ES® - Extra Soft

The tighter cell structure of TEMPUR-ES® creates a softer feel that works in combination with other layers to support and relax.

TEMPUR-APR® - Advanced Pressure Relief

Our most pressure-relieving material ever — made for deeper, more rejuvenating sleep.

TEMPUR-APR+™ - Advanced Pressure Relief Plus

Delivers all the pressure relief of original APR, with a more advanced cell structure for ultra-conforming comfort.

TEMPUR-CM+™ - Climate Management

Expertly designed for maximum airflow and breathability — dissipating heat and delivering all-night cooling comfort.

How is TEMPUR® Material different from typical memory foam?

Unlike ordinary memory foam, TEMPUR® Material's precision-engineered cellular structure immediately and precisely adapts to your weight, shape, and temperature. Your body heat causes the material to soften, continuously adapting to your shape while you sleep.

MATTRESSES

What is the difference between the TEMPUR-Adapt®, TEMPUR-ProAdapt®, and TEMPUR-LuxeAdapt® mattresses?

TEMPUR-Adapt®

Legendary comfort and support for deeper sleep.

TEMPUR-ProAdapt®

Advanced pressure relief for restorative rest.

TEMPUR-LuxeAdapt®

The ultimate TEMPUR® experience for total relaxation.

See pages 38-39 for more details.

What is the difference between the PRObreeze° and LUXEbreeze° mattresses?

PRObreeze°

The all-new TEMPUR-PRObreeze° feels 3 degrees cooler throughout the night — for deep, uninterrupted sleep.*

LUXEbreeze°

The all-new TEMPUR-LUXEbreeze° feels 8 degrees cooler throughout the night while delivering maximum pressure-relieving power — so you'll sleep deeper, cooler, longer.**

*Based on average heat index of TEMPUR-PRObreeze° compared to TEMPUR-ProAdapt® models measured over 8-hour period.

**Based on average heat index of TEMPUR-LUXEbreeze° compared to TEMPUR-ProAdapt® models measured over 8-hour period.

See pages 54-55 for more details.

Does Tempur-Pedic® offer any mattresses with a more traditional spring-coil feel?

Our hybrid models include 1000+ premium spring coils designed in-house to work with our proprietary material. They provide a more traditional feel and ease of movement. A hybrid option is available in Adapt, ProAdapt and PRObreeze°.

What is a Split King?

A Split King bed is made of two Twin Long mattresses, allowing you to share your bed without compromising your individual sleep preferences.

Why switch to a Split King?

Personalized feel: Mix and match the same feel or different feels to get a personalized sleep space for your best night's sleep.

Personalized adjustability: Add an adjustable base for your own personalized experience. Sleep flat on your side while they sit up and read on theirs.

What sheets do I need for a Split King?

A regular King-size fitted bed sheet will fit over both mattresses. However, for adjustable base use, it's recommended two Twin Long sheets be purchased. All Tempur-Pedic® brand sheets offer sets in both Split King and Split CA King sizes.

A set will include:

- 2 Split King fitted sheets
- 1 King flat sheet
- 2 King pillowcases

Does CA King have a split option?

Yes.

Will the Split King beds separate?

Under normal conditions, the beds will not separate — particularly if they are used within a piece of furniture that surrounds the bed to help define the space. Even without a piece of furniture, it is rare that the beds will separate, as the weight of the bases and the mattresses will require a decent amount of force to move.

How long will it take to get used to my new mattress?

If you're used to a traditional mattress, your new Tempur-Pedic® mattress may take some getting used to. As you sleep on the mattress, it will respond to your body weight and temperature, conforming to your body, and feeling more "natural." This "break-in" period lasts for a couple of weeks. During this time, the TEMPUR® cells are fully opening, so they can optimally adjust to temperature changes and weight.

Will your mattresses fit my current bed furniture and frame?

We design our mattresses to fit most standard-size bed furniture and frames. Unless your product was not designed for the U.S. market, or is an unusual size, our mattresses should fit. If you have any question about whether a Tempur-Pedic® mattress will fit your bed or furniture frame, we recommend that you refer to the specific product dimensions.

FAQ, CONTINUED

Can I have different heights of mattresses for each side?

If the mattresses you choose for your custom Split King/CA King are of different heights, our Sleep Experts can help you understand how our adjustable bases may be able to help offset differences in mattress height.

Will I feel a gap between both mattresses?

The mattress edges are rounded; therefore, there may be a slight gap, but most owners do not feel it or have issues with it. Additionally, one of the benefits of TEMPUR® Material is that it provides a great edge-to-edge sleeping surface that will minimize any feeling of the “split” in the mattress as long as the mattresses are the same on both sides. If you choose to customize one side or the other, there will be a feel difference when you move from one side of the bed to the other.

Will your mattress make me hot?

We get this question often, but, in fact, sleeping warm on a Tempur-Pedic® mattress is not an issue that our owners raise frequently. Our mattresses are designed to respond to your body temperature, which activates their ability to conform to your body, offering support and reducing pressure points. If you're naturally a hot sleeper, TEMPUR-breeze° mattresses may be a good option for you. Our breeze° series features one-of-a-kind cooling technology to help you stay cooler throughout the night.

My new mattress has a slight odor.

How long will it last?

TEMPUR® Material can have a slight odor after it is manufactured. This smell is normal and harmless, and it usually disappears before the product reaches you. If you notice this odor, know that it will dissipate in a week or two. Sometimes it's helpful to “air out” your mattress for a couple of days, leaving the sheets off when you're not sleeping on it.

Why does my mattress feel firm at times and soft and responsive other times?

TEMPUR® Material responds to your body weight and heat. It contours to your body, automatically adjusting to your every curve. When not in contact with your body, the material returns to its usual shape (which it's designed to do, so it feels like new every time you sleep on it), so it can feel slightly firmer when you first lie down. After you have been on the mattress awhile, the material responds to your body heat and starts to feel more conforming and responsive. TEMPUR® Material is also temperature sensitive. If you keep your room too hot or too cold, it may feel softer or firmer.

Do I need to flip my mattress?

Since our mattresses are designed so you do not have to flip or rotate them, you'll never have to face that backbreaking task. In fact, you should not flip our mattresses — they all have a top side that's designed for sleeping.

Can I fold my mattress?

We recommend storing your mattress flat. However, if you're moving the mattress, it may be folded. Be sure to fold it with the top side facing in on itself. If the mattress sits folded in cold weather for hours, do not try to force it to “unfold” when you place it in your room — it will naturally return to its original shape over the course of a couple of hours.

Can I use an electric blanket or heating pad with my mattress?

We recommend you do not use either electric blankets or heating pads with our mattresses. Longer periods of exposure to the heat from electric blankets or heating pads may damage the mattress.

What happens if I spill liquid on my mattress?

If you spill liquid on your Tempur-Pedic mattress, you can take the following steps. Please note that any stain or odor may not be completely removed.

For mattresses with a non-removable cover:

Soak up as much of the liquid as possible using towels (you may have to push down on the material with the towels). Once you've removed the excess moisture, let the mattress air-dry (you can use a fan to blow directly on the mattress to speed up the process).

For mattresses with a removable cover:

- Remove the zippered cover from the mattress
- While the cover is removed, soak up as much of the liquid as possible using towels (you may have to push down on the material with the towels)
- Once you've removed the excess moisture, let the mattress air-dry (you can use a fan to blow directly on the mattress to speed up the process)
- Wash the cover in cold water with mild detergent
- Line dry for best results
- Never use bleach or bleaching products with the cover

Note: We offer a mattress protector that can provide extra protection against spills. It's specially designed to fit all Tempur-Pedic mattresses, and highly stretchable to move with the mattress as it conforms to your body. It traps liquids to keep the mattress clean and stain free, and provides an additional allergen barrier to deter bacteria and dust mites.

Do you have replacement covers for mattresses?

Yes, we do, for any of our mattresses with a removable cover. You can talk directly to the Sleep Experts at Tempur-Pedic at (888) 811-5053, and they can help place an order for you.

PILLOWS

How long will it take to get used to my new pillow?

If you're used to a traditional pillow, your new Tempur-Pedic pillow may feel different at first, typically more firm than what you're used to. As you sleep on the pillow, it will respond to your weight and temperature, conforming to your head and neck, and feel more "natural." This "break-in" period lasts for a couple of weeks. During this time, the TEMPUR® cells are fully opening, so they can optimally adjust to temperature changes and weight.

How can I keep my pillow fresh?

For filled pillows, if you want to "clean" your pillow, follow these simple steps to allow the material to breathe and absorb fresh air:

- Remove the pillowcase and roll the pillow like a sleeping bag
- Unroll and repeat this procedure, rolling in the opposite direction

If your pillow has a removable cover:

- Remove the cover, wash in cold water with a mild detergent, and line dry

FAQ, CONTINUED

FOUNDATIONS & PLATFORMS

What is a foundation?

Our foundations look similar to a standard box spring. But instead of the “give” of a box spring, our foundations provide a solid base for our mattresses.

Do I have to purchase your foundation?

We encourage you to buy a foundation when you buy your mattress; it provides the solid base your mattress requires to do its job properly. If you choose not to purchase our foundation, you must position the mattress on a completely flat, solid surface with adequate center support. Please note that using the mattress without a Tempur-Pedic® foundation or similar firm, solid-surface, non-spring base may void the warranty.

Can I put your mattress on my existing box spring?

No, you should not place the mattress on a box spring. Box springs are designed to give in supporting a traditional mattress, while Tempur-Pedic® mattresses require a solid base.

I have a platform bed. Do I have to buy your foundation?

Tempur-Pedic® mattresses are designed to work on a firm, solid-surface, non-spring foundation or adjustable bed base that is structurally capable of supporting the weight of purchaser’s Tempur-Pedic mattress and user(s). This Limited Warranty and other performance warranties are based on tests conducted on “sets” that consist of our mattresses and our foundations/adjustable bed bases. Therefore, if purchaser uses inappropriate foundations, box springs, adjustable bed bases, or bed frames with the mattress, such use will void this limited warranty and all other warranties, whether expressed or implied, including, without limitation, the implied warranties of merchantability and fitness for a particular purpose.

Can I place a piece of particleboard or plywood over a box spring to create a flat surface for my mattress?

No. A box spring is designed to support a traditional spring mattress, and it “gives.” Placing a piece of particleboard or plywood over a box spring will produce a surface that is unstable and will void your warranty.

How much weight will your foundation hold?

We designed each of our foundations to support the weight of a mattress plus two persons resting on top. Each foundation is designed to support approximately 600 pounds of weight.

ADJUSTABLE BASES

Which mattresses can be used with your adjustable base?

We have made sure that our mattresses are compatible with any of our foundations, power bases, and Smart Bases.

What is the height of your adjustable base?

- For the Ease®, the minimum height is 4” (zero clearance) and maximum height of 16”.
- For the TEMPUR-Ergo®, the minimum height is 4” (zero clearance) and maximum height of 16”.
- For the TEMPUR-Ergo® Smart Base, the minimum height is 4” (zero clearance) and maximum height of 16”.
- For the TEMPUR-Ergo® Extend Smart Base, the minimum height is 8” (zero clearance) and maximum height of 20”.

What is the weight limit of your adjustable base?

Our adjustable bases support up to 650 lbs. each (Twin, Twin Long, Double, Queen, and Split/Dual CA King bases).

All adjustable bases will structurally support the recommended weight distributed evenly across the head and foot sections. Adjustable base products are not designed to support or lift this amount of weight in the head or foot sections alone.

Will your adjustable base fit inside my existing bed frame?

We have found that the adjustable bases fit inside most modern bed frames. However, they may not fit inside antique bed frames or other non-standard frames. We recommend you measure the inside of the bed frame and compare to the measurements below to be sure the adjustable base will fit.

What are the dimensions of your adjustable base?

For complete measurement information for the two adjustable base models, you can download the owner's manual from TempurPedic.com.

Where is the serial number on my adjustable base?

To locate the serial number for your adjustable base, look inside the back cover of your base remote, on the power-down box under the base, on the frame right below the foot-end of the base, on the warranty card, or in the owner's manual.
